## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Citizens of Southport, Greetings:

In this, my eighteenth annual report to you, I shall attempt to present in a minimum of space the important items which should be a matter of record and the problems which are most urgently in need of solution.

### STATISTICS

The School Census of last April showed 109 young people between the ages of five and twenty-one as residents of this town. This is an increase of 8 above a year ago.

At the opening of the winter term there were 49 pupils enrolled in our schools, exactly the same number as a year ago. In addition, we are paying tuition on 22 pupils at Boothbay Harbor High School at \$91.43 per year.

### TEACHERS

Schools thruout the nation, and particularly in Maine because of low wages, are faced with a serious teacher shortage. We are fortunate to have retained as strong a corps of teachers as we have. For the Newagen School we secured Mrs. Gladys Crocker of Southwest Harbor with training at Rhode Island College of Education and twenty years experience. For the vacancy at West Southport Primary we engaged Miss Helene Decker of North Bridgton who graduated from Farmington Normal last June.

In November Edith Greenleaf applied for the primary vacancy at Boothbay Center and we released

her from her contract with us. Her place at the East Side School has been taken by Miss Constance Sherman, who graduated from Perry Kindergarten Normal and has had a year's experience.

I give below the enrollment at each school, the name of the teacher, the number of years experience each will have had in June, and the yearly salary.

14	East Side, Constance Sherman, 1½	\$ 828
5	Newagen, Gladys Crocker, 21	846
11	West Southport Primary, Helene Decker, 1	828
19	West Southport Grammar, Violet Smith, 21	1080

### INCREASED COSTS

In making up our budget a year ago we felt that the most vital problem was the safeguarding of our teaching staff. The 20% pay raise which you voted was instrumental in holding a strong group and in hiring capable teachers to fill vacancies. We did not at that time anticipate such a general scarcity of labor nor a continued increase in living costs. After careful consideration in the summer we made a 20% increase in payments to our janitors.

Our High School bus contract expired in June. We advertised for bids and received one only, that of Clifford Buck, at \$38.85. We have a 3-year contract with him at this figure.

With a definite increase in costs of school supplies, we have maintained the usual services. We have replaced the history-geography-civics books in Grades III, IV, V, VI with a new series which seems much superior.

### GENERAL

The formation of the Boothbay Region District

Nursing Association was a step ahead for the community and for the schools. A nurse was not secured till mid August. Her work on school health problems has already shown the advantages of such services.

School repair work has been kept at a minimum.

No report of your schools would be complete without a statement that teachers and superintendent have done their best to serve you efficiently in the government rationing program of sugar, gasoline, fuel oil. We have cooperated in the scrap drives. We are promoting the sale of Defense Stamps and Bonds. At the moment of writing this, we are completing plans for the issuance of War Ration Book Number 2.

### OUR SMALL SCHOOLS

I cannot do my duty as your superintendent of schools without calling again to your attention the low enrollment in each of our classrooms. I do this, gladly admitting that any action in the matter rests entirely with you.

Our 49 pupils could be schooled in the 2-room building at West Southport, with a saving of two teachers. There are 46 in the 2-room building at Trevett, 65 at Boothbay Center, 47 at West Harbor.

I should expect the children to make better progress in studies and general development because of larger, more interesting classes. Between a thousand and fifteen hundred dollars a year would be saved to the taxpayers. At least one Southport resident has suggested that it may not be patriotic to employ four teachers to do the work of two when the state and nation are faced with a serious teacher shortage.

I cheerfully admit that it is fine to have the school-house near enough so that boys and girls may go

home for dinner. I realize fully that conveyance means a long day away from home for the young children, who do not spend the full day studying at desks. Yet consolidation continues to grow and after a brief experience with it, few homes ever wish to return to the one-room school. They have learned that the new set-up means, by and large, year in and year out, better teaching, better learning, better all-around development.

### BUDGET

We have made careful estimates of the funds needed to operate the schools this coming year. In Common Schools we propose no change in teachers' wages, but the increased janitor costs and fuel make necessary an increase in the appropriation. However, this can be reduced by \$961 if you decide to close the East Side and Newagen Schools as of next June. We anticipate a slight increase both in number of High pupils and in the rate of charge. Our new bus contract is at a higher rate of pay than that prevailing during the previous era.

Common Schools, as now operated	\$3996
If the East Side and Newagen are closed	3035
High School Tuition	1504
High School Conveyance	1544
Textbooks and Supplies	300
Repairs	200
Medical Inspection	5

In conclusion, let me express to you the appreciation of us school people for your fine cooperation in

a very difficult year. We pledge our support to you in the all-out drive for Victory.

Respectfully submitted,

HAROLD B. CLIFFORD, **Supt.**

# OUR TOWN

## ONE HUNDRED YEARS AGO

**INCORPORATED AS TOWNSEND, 1842**  
**NAME CHANGED TO SOUTHPORT, 1852**

## OUR TOWN ONE HUNDRED YEARS AGO

In this our one hundredth year of incorporation as a town, it has appeared fitting to your selectmen to publish the following tax list and record of Orders on the Treasurer for the year of 1842.

A study of these one hundred year old records shows some very interesting procedures, and values as compared with those of today. For instance, the appropriation for roads was handled by assessing the entire valuation separately (this separate assessment not printed in the following tax list) for a very small amount (a total of \$142.29 for year 1842) which was then broken up into four varying sums and committed, not to the Treasurer, but to four different road commissioners or "surveyors of highways" as the officers were called at that time. Presumably this allowed the road commissioner to collect the taxes committed to him against each individual or the equivalent in labor on the roads.

Another very interesting comparison appears in the valuation of two of our islands, Squirrel Island and Mouse Island—the former was owned by William Greenleaf on which he paid \$8.66 tax and the latter was owned by William Norwood and his tax on the same was 38 cents.

There appear many headings in the assessment book under which a man's various taxable personal property was classified. Many of the totals of these headings are interesting in that they have mostly or entirely disappeared from our town and life today.

They are as follows: Oxen, 14; Cows, 61; Sheep, 45; Tons of Shipping, 636; Swine, 51 we also find a heading, "Pleasure Carriages" of which there are only two listed which goes to prove that pleasure was not the order of the day.

An unexplainable item, to the writer, is the payment of "State tax." The tax list shows an amount assessed for the purpose, but no order was drawn on the Treasurer for the paying of this to the State, and it is no omission or oversight of this particular year as a check up of the Treasurer's records up to the year 1860 reveals no payment of same, but each year it was assessed by the assessors.

An evolution in property ownership is shown by the fact that only one woman owned property in the Town in 1842. Some other interesting points appear in a study of the valuation of dwellings and acreage value. The highest valuation on a dwelling house was \$250. and, there were only two at that figure, most of them being fifty and seventy-five dollars. There is only one place in the list where land is valued at more than \$5.00 per acre and mostly it was \$1.00 with practically everyone owning 15 acres and with one owner having as much as 200 acres.
